Today's Speaker: Earle Wicklund, Wicklund & Associates introducing Jerry Brazie, Senvoy.

Earle Wicklund, Wicklund & Associates, specializes in commercial real estate of all types. Office, industrial, development, investment, retail, sales, purchase and leasing.

Jerry Brazie, Senvoy, started his company in 1999 after working in the delivery/courier industry and starting a company with a partner. Senvoy grew exponentially, and in 2004, they made the decision to shrink the business and focus on the profitable areas of delivery/courier service.

Today, Senvoy is a \$15 million company that owns its own building, warehouse, fleet, gas station and IT department. They have 350 employees in Oregon, Washington, Idaho and Northern Nevada and do over 25,000 deliveries each day.

Senvoy specializes in expedited shipping of all types: courier, messenger, routed systems across town or across the region/country. It doesn't matter if you are a large company with many needs or a small company with smaller delivery needs.

Good leads for Senvoy: any company that needs any materials moved within 24 hours, either across town or across the region and country.
