**Today's Speaker: Ken Daswani, Daswani Tailors introducing Dick Osborne, World Cup Coffee.**

**Ken Daswani, Daswani Tailors**, specializes in made-to-order suits and dress shirts for men and women. He also offers the same custom tailoring in casual attire for men and women and a full line of accessories (belts, ties, etc.).

**Dick Osborne, World Cup Coffee**, is the sales manager for this local company. They have 4 locations: Northwest Glisan, Powell's downtown, Ecotrust building and soon at the Powell's at Tanasbourne.

World Cup specializes in roasting the beans themselves. This provides freshness and quality in smaller batches. Their company installs coffee machines and filtration systems in businesses around the Portland area. They do not do restaurants.

There is no minimum for service and technicians generally visit installations on a monthly basis to restock, clean equipment and check in with customers. World Cup maintains an inventory of coffee machines and supplies for quick replacements in case of breakdowns.

Water filtration is another area that World Cup Coffee provides. This system attaches to your current water system and reduces the use of water bottles by employees. Water filtration is a "green" alternative for businesses.

**Good leads for World Cup Coffee:** any business with employees interested in coffee or filtered water systems. Small or large businesses are okay.
