Guests Welcome!

Warm welcome to today's guest, Angela Hall, Office Interior Concepts and guest of Walt Duddington.

Today's Speaker: Chris Casteel, Prestige Limousine, introducing Sam Kress, Associated Business Systems.

Chris Casteel, Prestige Limousine offers limousines, Mercedes Sedans, vans and 14-passenger mini-coaches for events, trips to the airport, picking up clients and more. For OEA members, these options can be available to you at cost until July, 2008—don't miss the opportunity to try Prestige Limousine's service!

Sam Kress, Associated Business Systems, is the VP of Marketing for this local company that has grown to be one of the largest independent distributors in the United States.

Associated Business Systems sells copiers, paperless distribution systems, technological advances in filing, e-mailing, scanning and more. They truly are a technology company that brings Ricoh products to your office environment.

With over 200 employees, ABS also provides quality service to its customers. With the help of technology, service technicians can respond to customers within an hour of contact and be at their office location within 3 hours.

While many businesses think that technological solutions to paper handling are out of their price range, improvements in technology bring options to businesses of all sizes.

Good leads for Associated Business Systems: businesses that use paper in their daily work; businesses that complain of paper build-up or the number of times they move a single piece of paper around their company.
