Warm welcome to today's guests: Debra Utberg, Debra Diane Design and guest of MaryAnn Gray, Sandy, photographer and guest of Virginia Bruce, Ronda Miller, alternate for Sacha Basho and David Darnell, Archon Electric.

Today's speaker: Mike Weidman, TeamLogic introduced by Patrick Bolan, Hold Time Music.

Patrick Bolan, Hold Time Music, provides music and messages while customers are placed on hold. This is a unique market where a good lead is any business you have been placed on hold to silence or Musak.

Mike Weidman, TeamLogic IT is part of an international franchise. They provide clients with computer equipment, on-going network management, troubleshooting and support.

In meeting with clients, TeamLogic provides them with a good, better, best option after asking three questions: what do you do today, what do you want to be doing, where do you want to be in 5 years? These questions help TeamLogic develop an equipment and support program that works best for the client.

In addition, TeamLogic has an isecurity package to assist with meeting Oregon's new identity theft and protection law. They recommend regular back-ups that are stored off-site, will check wireless systems to ensure they are secure, and help you develop a technology system that always works.

Good Leads for TeamLogic IT: businesses with 5 to 25 computers, no residential unless home-based office. Can set up management accounts for larger businesses to assist their IT departments.
